Service Problems

LACK OF TIMELY AND EFFECTIVE SUPPORT SERVICES *at Dam Sen Cultural Park*

#1

Slow or no response from support hotline

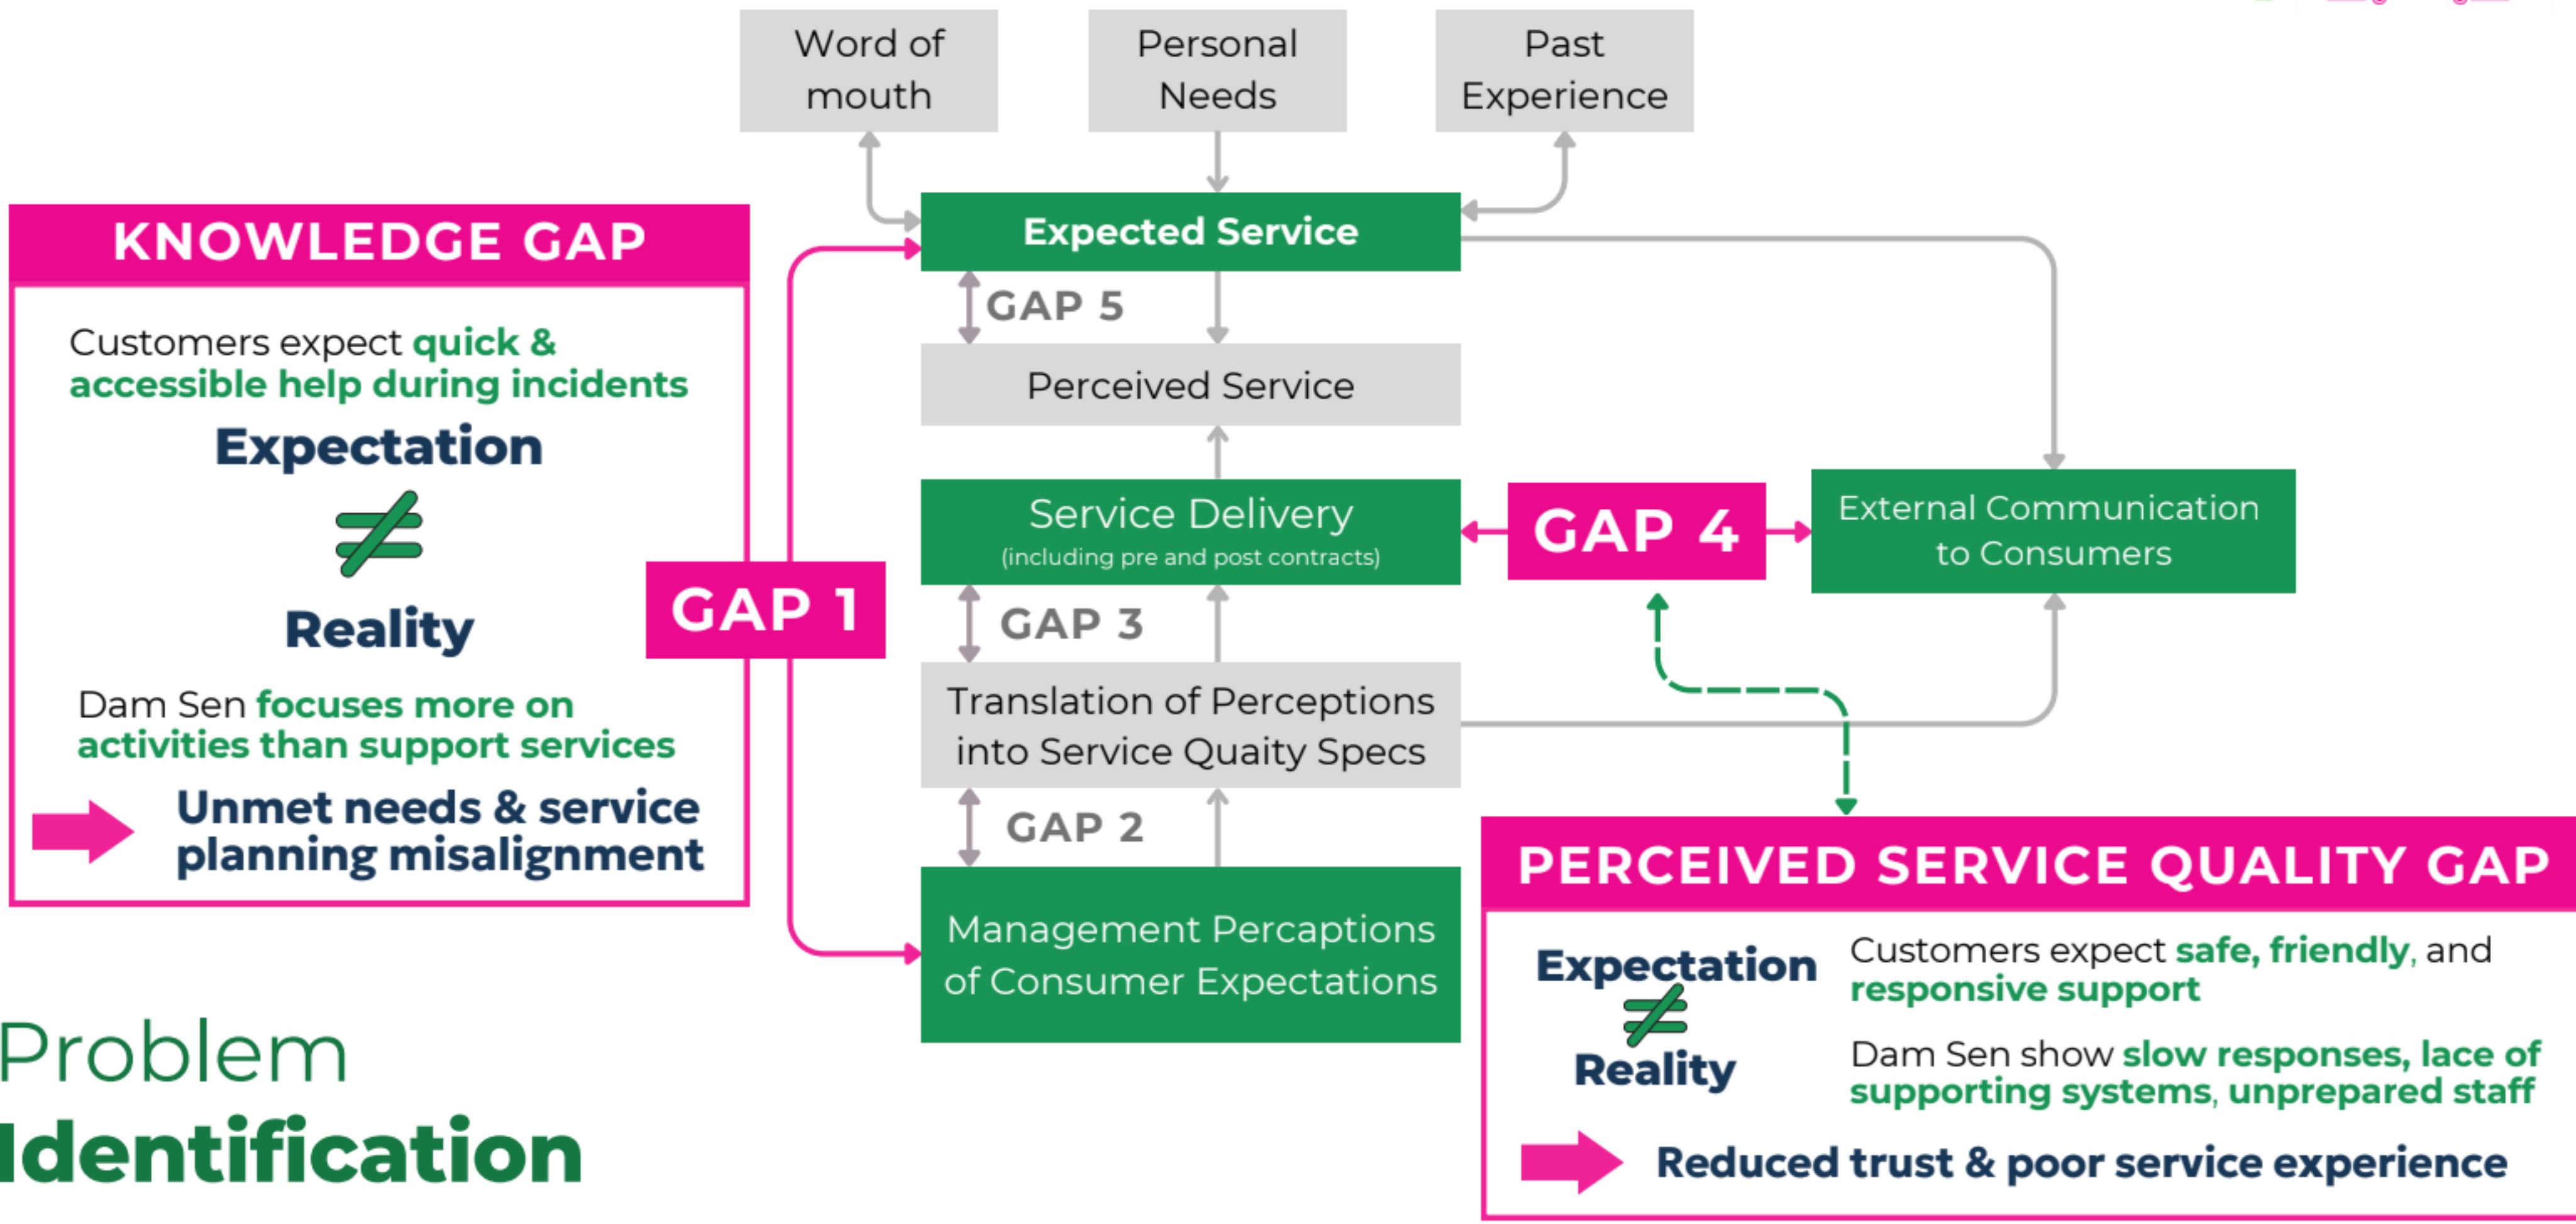

#2

On-site staff lack problem solving skills

#3

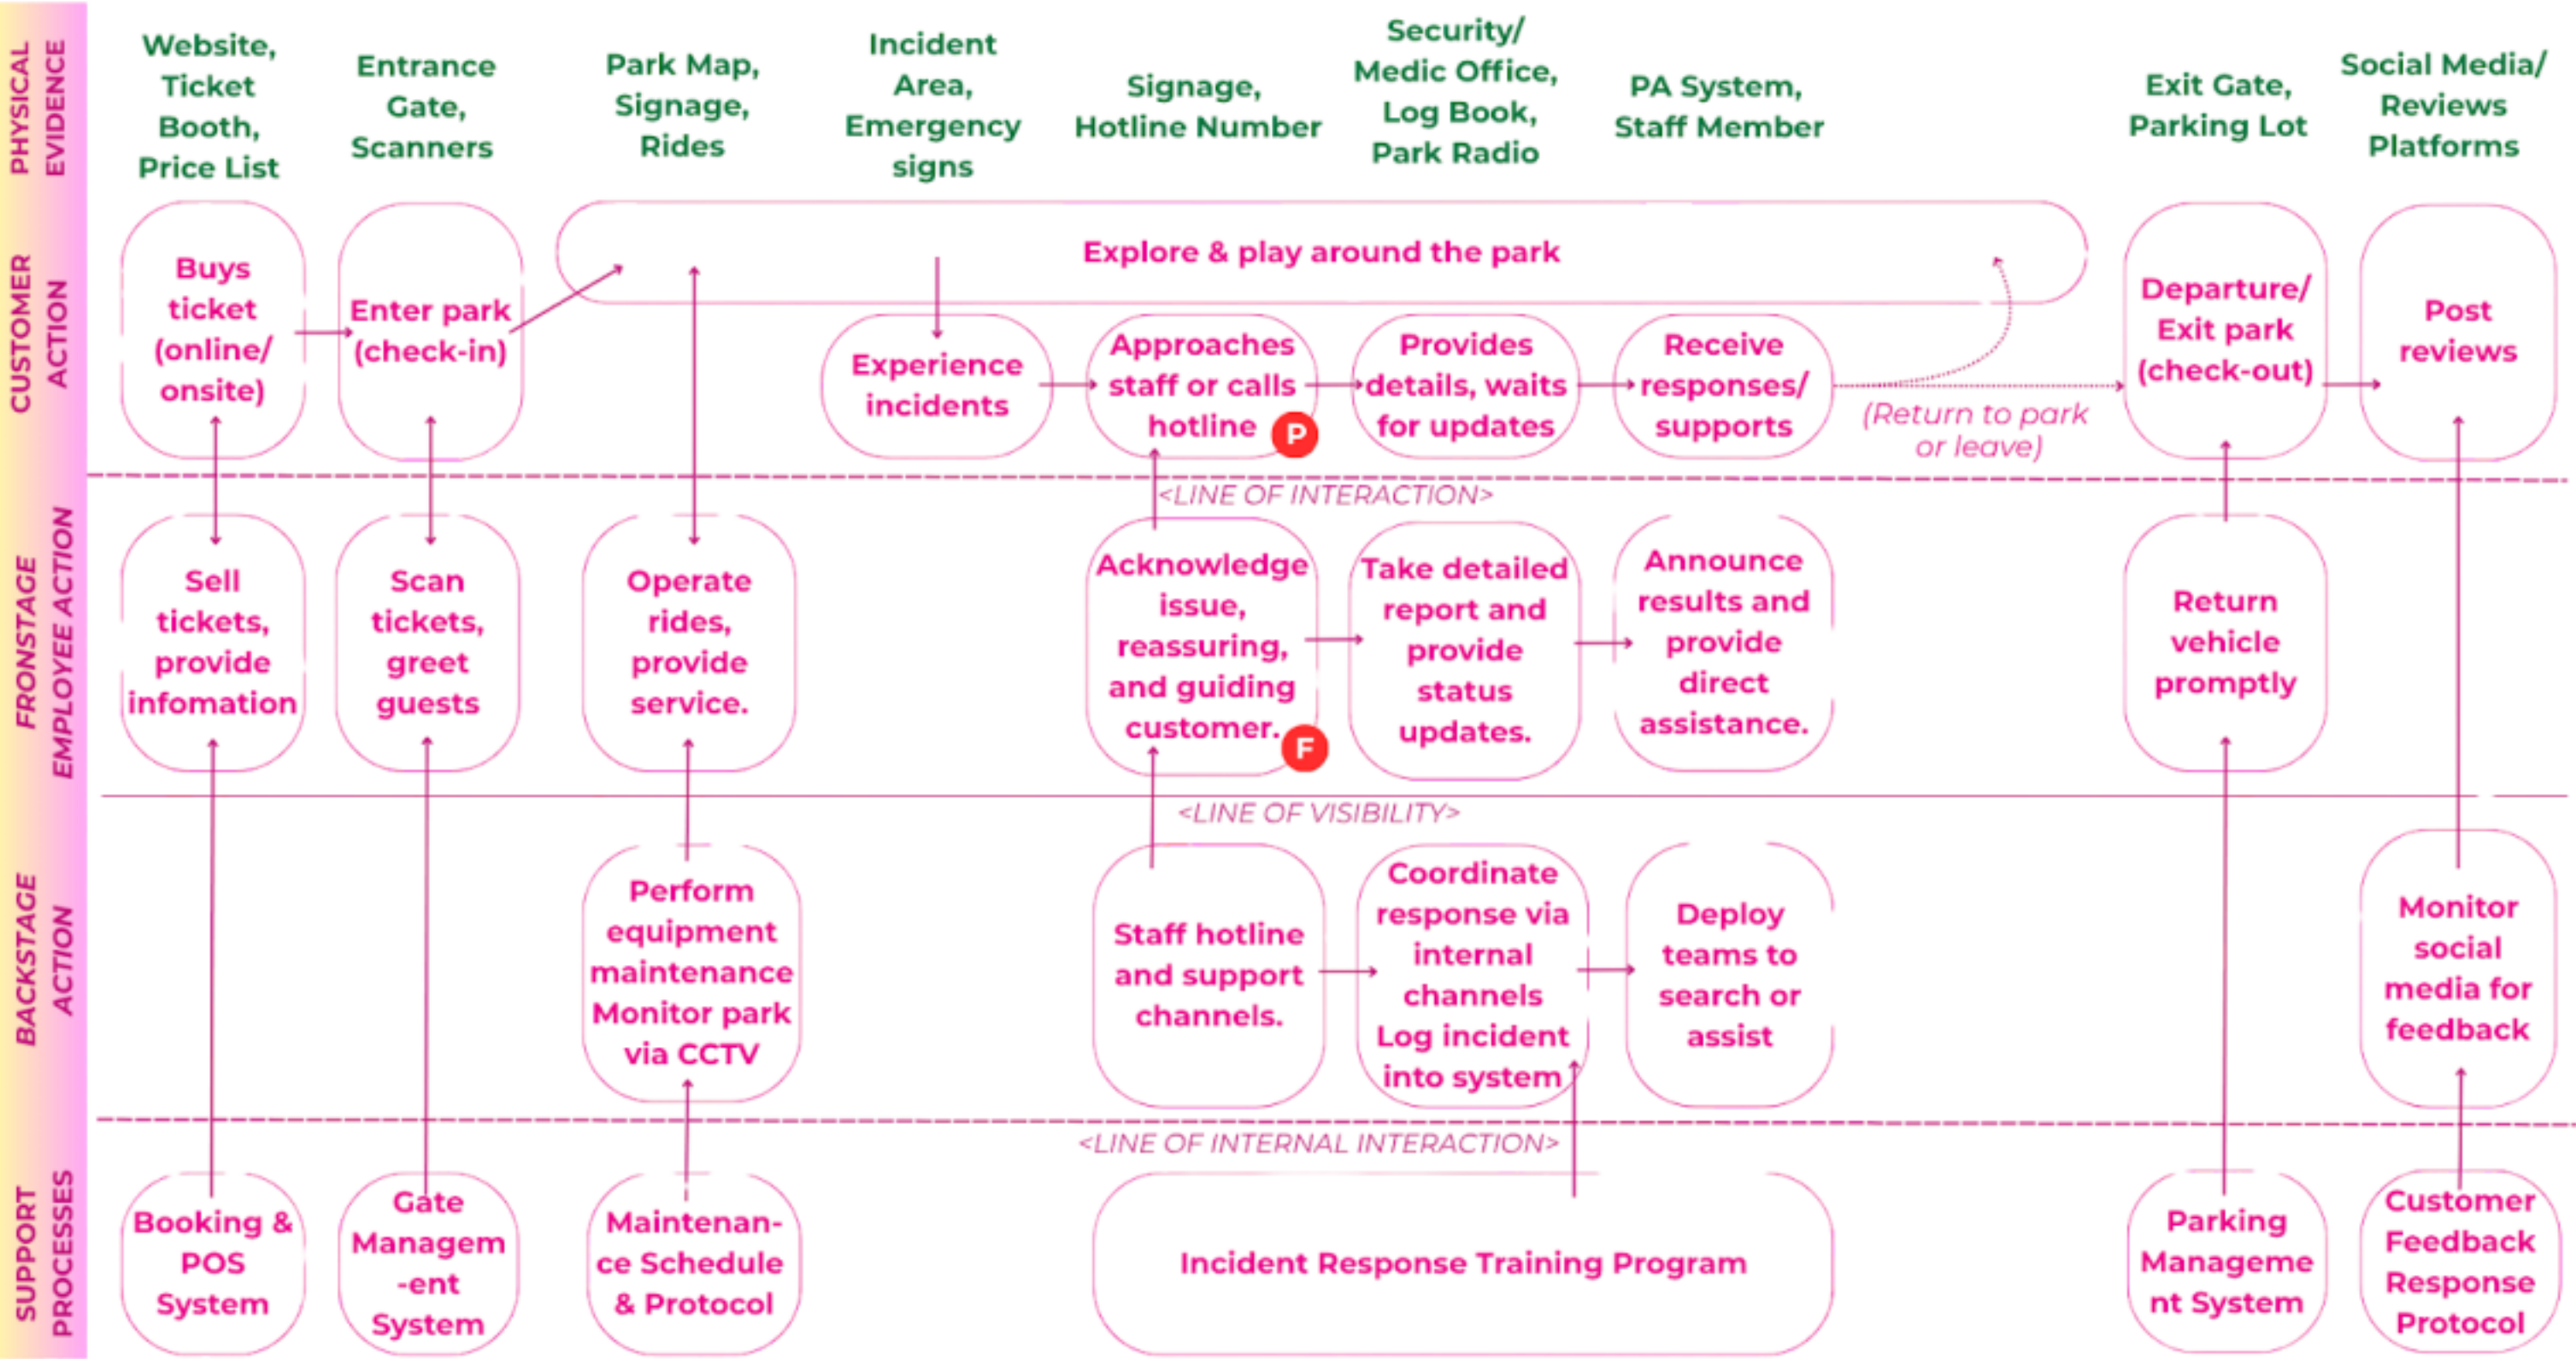

Delayed & unreliable visitor assistance

#1 Service Gap Model

Problem
Identification

#2 Service Blueprint

PAIN POINTS

Customers ask for help but get **slow or unclear** responses

ROOT CAUSE

Support response from both the hotline and on-site teams tends to be **slow and uncoordinated**.

Problem Identification

Target Customers

Demographic:

- 25 - 45 YO
- Parents with 1-2 kids
- Middle - high income

Area: suburban, provinces visting HCMC

Behaviors:

- **Usage Rate:** Occasional visitors, often first-time
- **Benefit Sought:** Safe, family-friendly environment with fast and accessible support

Psychology:

- **Concern:** Highly concerned about child safety and require quick assistance
- **Lifestyle:** Tightly scheduled trips with limited time in the park
- **Personality:** Easily stressed when child-related issues (lost, confused, injured) are not resolved quickly

Demographic:

- 15 - 55 YO
- Middle income

Area: From nearby provinces or local areas

Behaviors:

- **Usage Rate:** Irregular visitors for leisure or sightseeing
- **Benefit Sought:** Clear, easy-to-follow park info and reliable services

Psychology:

- **Concern:** Focused on accurate information and the smooth service flow
- **Lifestyle:** Flexible day trips with simple plans
- **Personality:** More tolerant of delays but get overwhelmed if directions are unclear

Service Problem Research

Feedback for Low-Fi

WHY THIS SOLUTION?

- Conducted short interviews with target users
- Let users try the low-fi prototype

Minh Hung - Doctor

*I think the app would be better if the **interface looked cleaner** and **more friendly**. It's important that users can easily understand and navigate it.*

Minh Hoang - Highschool student

*I'm really **impressed** with the **interactive map** feature. It's useful and engaging. You could consider developing it further to show **live updates** or **nearby services**.*

Anh Thu - Housewife

*The **ticket feature is helpful**; however, it would function more effectively with **further development**. I also suggest adding **a live support feature** to enhance user experience by providing real-time assistance when needed.*
